TOWERS

G4 TOWER: MALIBU'S CUTTING-EDGE G4 TOWER IS A TORTURE-TESTED FEAT OF ENGINEERING WITH THOUSANDS OF R&D HOURS BEHIND IT, SETTING A NEW GOLD STANDARD FOR THE WATERSPORTS INDUSTRY. AEROSPACE ALUMINUM AND AN INTERNAL HONEYCOMB STRUCTURE PROVIDE THE OPTIMAL STRENGTH-TO-WEIGHT RATIO, MAKING THE G4 THREE TIMES MORE RIGID THAN EVEN ITS PREMIUM PREDECESSOR. MALIBU'S EXACTING ATTENTION TO DETAIL IS EVIDENT IN THE AUTOMATIC VISIBLE LOCKS, A COMPLETELY

INTEGRATED WIRING HARNESS, Z5 BIMINI COMPATIBILITY, AND ZERO PINCH POINTS. THE G4'S SLEEK, AGGRESSIVE DESIGN IS APT FOR SUCH A TECHNOLOGICALLY ADVANCED TOWER, BUT IT'S ALSO AS USER-FRIENDLY AS CAN BE, TAKING LESS THAN 30 POUNDS OF FORCE TO EASILY LIFT, LOWER, AND LATCH.

G3.2 TOWER: MALIBU IS THE ONLY MAKER IN ITS SEGMENT TO MANUFACTURE ITS TOWERS IN-HOUSE, INCREASING AND CONTROLLING QUALITY WHILE REDUCING COST,

AND THE G3.2 IS OUR 2015 EVOLUTION OF LAST YEAR'S PREMIUM G3. WHILE IT FEATURES EASY LATCHING, POWERFUL LIGHTS, STAINLESS-STEEL HOOPS, AND ANODIZED AND POWDERCOATED COMPONENTS, THE G3.2 CAN ALSO GO BEYOND UTILITY AND STRENGTH TO HOUSE A SERIOUS SOUND SYSTEM: OPT FOR SWIVEL-MOUNTED, HIGH-FIDELITY G-FORCE WET SOUNDS SPEAKERS TO SET THE SOUNDTRACK FOR YOUR RIDE.

▶ **2. Z5 CARGO RACK & NEW BIMINI OPTIONS**

The top-of-the-line Z5 provides ample shade and also holds boards, inflatables, and accessories. It tilts down for easy loading from the boat and includes quick-connect tie-down straps for safe trailering. Malibu's new standard bimini provides shade and rope storage. The Deluxe Surf bimini offers the same but with surfboard storage as well.

▶ **3. HD FLO-CAM**

This high-definition rear-view camera works with the swivel-head tower pylon to follow the rider in tow, adjusting to any distance. Footage is viewable live or recorded on the MaliView.

▶ **4. G-FORCE ICON 8 TOWER SPEAKERS**

Wet Sounds eight-inch tower speakers with tweeter offer full mid-bass sound and clean detailed highs. Feature Malibu-designed G-Force enclosure with new waterproof connectors and optional swivel mounts. Powered by 500-watt Rockford Fosgate amp.

▶ **5. G4 & G3.2 PTM CLAMPING SPINNER BOARD RACKS**

These aerospace-grade, anodized-aluminum swivel racks are corrosion-resistant and ratchet down with the slightest tug on a single lever, securing your wakeboards, wakesurfers, or wakeskates. *Wakeboarding Magazine* called these "the best board racks ever."

▶ **6. G4 & G3.2 SKI RACK**

Accommodates two slalom skis with easy-access bungeed forks to free up storage areas on board. Port/starboard or both available.

▶ **7. G-FORCE REV 8 TOWER SPEAKERS WITH HORN**

Wet Sounds eight-inch tower speakers with horns, new waterproof connectors, and optional swivel mounts. They sound great with amps.

▶ **8. G3.2 TOWER MIRROR**

Housed in an aluminum billet with an adjustable arm, this mirror offers high-definition, prescription-grade optics with a 140-degree field of view.

COMMAND CENTER

THIS YEAR, MALIBU BECOMES THE FIRST TO MARKET WITH A 12-INCH TOUCHSCREEN, WHICH JOINS OUR SEVEN-INCH MTC TO FORM THE DISPLAY FOR OUR PEERLESS NEW COMMAND CENTER, GIVING THE DRIVER ENDLESS DATA IN AN EASY-TO-NAVIGATE INTERFACE. EVERY MAJOR FEATURE IS ON THE HOME SCREEN, MENU PATHS HAVE BEEN STREAMLINED, AND EACH COMPONENT MEETS IP60 WATER-INTRUSION STANDARDS.

BUILT WITH MORE PROCESSING POWER, HIGHER LEVELS OF INTEGRATION, A FEATURE-PACKED NEW OPERATING SYSTEM, AND POWERFUL WIRELESS CONNECTIVITY, THE NEW COMMAND CENTER IS AS REFINED AND EASY TO USE AS THAT OF ANY LUXURY CAR, ITS BRIGHT, HIGH-RESOLUTION DISPLAYS REPRESENTING THE MOST ADVANCED SCREEN TECHNOLOGY AVAILABLE. BOTH DISPLAYS ARE GLAREPROOF, AND A 170-DEGREE VIEWING ANGLE ALLOWS YOU TO READ THEM FROM ANY HELM POSITION, NO MATTER THE LIGHT CONDITIONS. AN OPTIONAL REAR-VIEW CAMERA LETS THE DRIVER WATCH RIDERS WHILE STILL ENJOYING A COMPREHENSIVE, REAL-TIME

READOUT OF ALL BOAT OPERATIONS, AND WITH THE ENGINE OFF, THE REAR-VIEW DISPLAY BECOMES A PDF VIEWER FOR THE OWNER'S MANUAL. A PUSH OF THE INGENUOUS "GO HOME" BUTTON RELEASES ALL YOUR BALLAST, DISENGAGES SURF GATE, STOWS THE POWER WEDGE II, AND SETS SPEED CONTROL AT 20 MILES PER HOUR.

THE NEW COMMAND CENTER'S SPORT DASH OPTION INCLUDES AN EXPANDABLE SMARTPHONE CRADLE, DRY-STORAGE BOX WITH USB CHARGER, AND A NEW, INTUITIVE ANALOG CONTROL DIAL FOR THE SURF GATE, POWER WEDGE II, SPEED, AND STEREO. THIS NEW DIAL IS A GREAT CONVENIENCE AND A CINCH TO GET THE HANG OF, ALLOWING THE DRIVER TO CONTROL ALL OF THE ABOVE WITH ONE HAND—AND WITHOUT TAKING THEIR EYES OFF THE WATER. ONLY MALIBU OFFERS ITS CUSTOMERS SO MUCH VERSATILITY, WITH BOTH A STATE-OF-THE-ART DIGITAL INTERFACE AND SUCH A SMART BUT SIMPLE HANDS-ON CONTROL.

MALIVIEW

The MaliView 12-inch touchscreen gives you fast, easy access to customizable rider presets, media controls, and a variety of rich gauge displays.

MTC

The Malibu Touch Command seven-inch touchscreen provides simple control of all systems, including the Power Wedge II, Surf Gate, ballast, navigation, rider presets, music, and lights. Coming standard on the new Command Center is the Mobile Device Gateway, which streams audio and uploads rider presets via Bluetooth and the free Perfect-Pull smartphone app.

ROCKFORD FOSGATE STEREO SYSTEM

This Malibu exclusive includes a 4GB thumb drive and features 45x4 watts of power, AM/FM tuner, touchscreen display, and iPod/iPhone control, plus it's compatible with MP3s, MPEGs, and Sirius satellite radio.

ENDLESS RIDE & SURF OPTIONS FOR EVERYONE

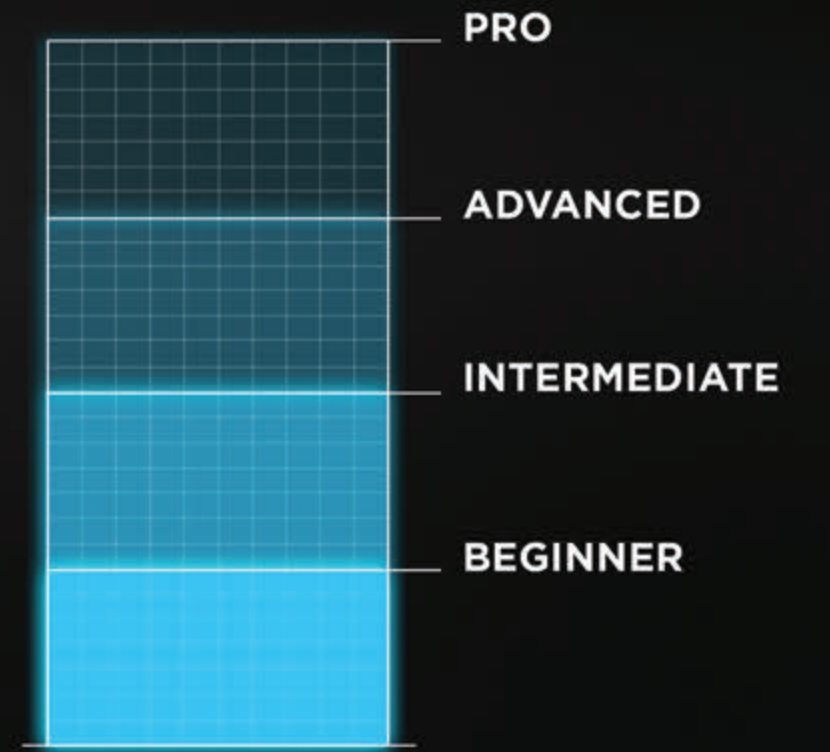

POWER WEDGE II

THE BIGGER, MORE VERSATILE, HYDRAULIC POWER WEDGE II FEATURES A LARGER FOIL WITH A 21 PERCENT SURFACE-AREA INCREASE, WHICH EQUATES TO AN ADDITIONAL 300 POUNDS OF SIMULATED BALLAST, FOR A TOTAL OF 1,500 POUNDS OF WAKE-CREATING WATER DISPLACEMENT. ON TOP OF THIS MASSIVE INCREASE, A NEW UPWARD ANGLE RADICALLY INCREASES LIFT, ALLOWING THE DRIVER TO GET A FULLY LOADED BOAT PLANING MUCH FASTER, SAVING YOU TIME AND GAS MONEY. THE MORE SYMMETRICAL WAKE THAT THE NEW POWER WEDGE II CREATES IS ALSO TALLER, LONGER, AND CLEANER. ADD SURF GATE AND YOU CAN TRANSFORM YOUR WAKE INTO A WICKED WAVE. THE RESULT IS AN EVOLUTIONARY LEAP BEYOND ALL OTHER WAKEBOARDING AND -SURFING SYSTEMS.

RIDER LEVEL

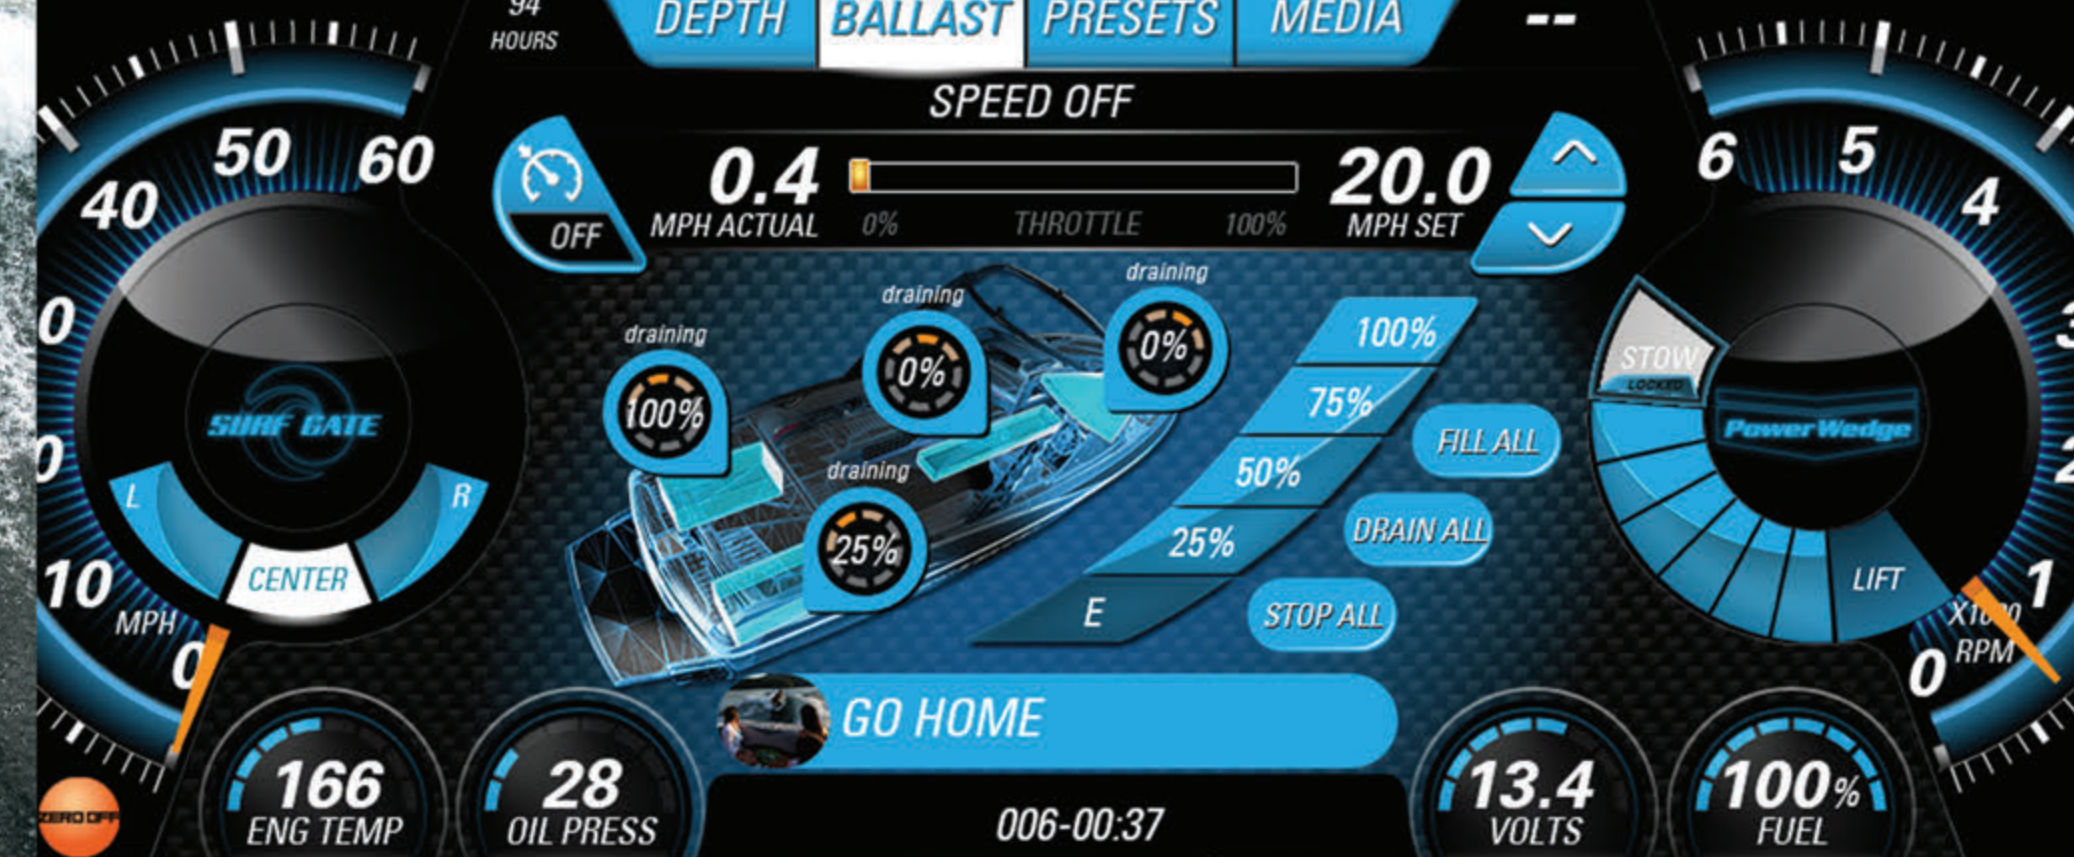

QUAD HARD-TANK BALLAST

MALIBU'S QUAD HARD-TANK BALLAST SYSTEM IS THE BEST, MOST DISCRETE WAY TO ADD SIGNIFICANT WEIGHT OR BALANCE OUT YOUR LOAD TO CREATE THE EXACT WAKE OR WAVE YOU DESIRE. RANGING FROM A TOTAL OF 1,250 POUNDS TO 1,450 POUNDS ACROSS THE WAKESSETTER LINE, HARD-TANK BALLAST HAS A TON OF NO-BRAINER BENEFITS VERSUS THE STOCK BAGS OR SACKS FOUND INSIDE OTHER BRANDS' TOWBOATS.

FIRST, HARD TANKS DON'T COLLECT MILDEW ON THE OUTSIDE AND ADD TO YOUR CLEANING MAINTENANCE. SECOND, OUR TANKS ARE HOUSED UNDER THE FLOORBOARD, SO YOU NEVER HAVE TO COMPROMISE STORAGE. THIRD, HARD TANKS GIVE YOU ACCURATE LEVEL READINGS, WHEREAS SACKS ALL SUFFER FROM INACCURACIES. CHOOSE TO FILL OR DRAIN ONE TANK AT A TIME OR FILL/DRAIN ALL WITH A TAP OF THE COMMAND CENTER TOUCHSCREEN. LASTLY, SACKS ARE JUST SOFT, EXPOSED TO THE ELEMENTS, AND PRONE TO PUNCTURES, SEAM TEARS, AND FIXTURE LEAKS.

PLUG 'N' PLAY

FOR ADVANCED RIDERS AND WAKESURFERS, MALIBU OFFERS THE PLUG 'N' PLAY OPTION, WHICH LETS YOU PLUMB TWO 550-POUND REAR SACKS INTO THE MLS, MAKING THEM EASILY ACCESSIBLE FOR VISUAL CHECKS AND MAINTENANCE.

ALWAYS CLEAN & CONSISTENT

ASK ANY MALIBU OWNER WHAT THEY THINK ABOUT THEIR WAKE AND THEY'LL MOST LIKELY DESCRIBE IT AS "CLEAN AND CONSISTENT." IT'S WHAT MALIBU'S ARE KNOWN FOR. FOR EVERYONE FROM FIRST-TIME RIDERS TO TOP PROS, OUR WAKESSETTERS OFFER THE VERSATILITY TO SET THE SIZE AND SHAPE OF YOUR IDEAL WAKE FOR PEAK PROGRESSION—ALL AT THE DRIVER'S FINGERTIPS WITH OUR ACCURATE, ADJUSTABLE BALLAST SYSTEM AND BIGGER, MORE VERSATILE, HYDRAULIC POWER WEDGE II.

SURF GATE

▶ IMAGINE TOTAL WAKE CONTROL AT YOUR FINGERTIPS. IT'S YOURS WITH MALIBU'S REVOLUTIONARY SURF GATE, THE FIRST WAVE-MAKER TO APPEAR ON THE MARKET. SURF GATE HAS CONSISTENTLY AND EASILY OUTPERFORMED AND OUTSOLD EVERY COMPETITOR COPY SINCE IT CAME OUT. WITH AN ALMOST 100 PERCENT ADOPTION RATE, WE SELL WELL OVER 3,000 SURF GATE SYSTEMS PER YEAR, DWARFING OUR COMPETITION. EQUIPPED WITH THE SURF GATE, OUR BIGGER, MORE VERSATILE, HYDRAULIC POWER WEDGE II, THE REFINED ENGINEERING

OF OUR WAKE-AND-WAVE-MAXIMIZING HULLS, AND OUR ON-THE-FLY QUAD HARD-TANK AND PLUG 'N' PLAY BALLAST SYSTEMS, MALIBU'S 2015 MODELS CAN MAKE MONSTER WAKES AND THEN LITERALLY TURN THEM INTO THE BIGGEST WAVES THE INDUSTRY HAS EVER SEEN, CREATING THE MOST DYNAMIC PLAYGROUND FOR WAKESURFING EVER. ALL YOU HAVE TO DO IS LIFT A FINGER TO TRANSFORM THE WORLD'S BEST WATERSPORTS WAKE INTO A PERFECT, SURFABLE WAVE, EASILY SHIFTING THE LIP FROM SIDE TO SIDE FOR TRANSFERS AND REGULAR OR GOOFY FOOT. FAST ACTUATORS ON THE DUAL SURF GATES MEAN EASIER TRANSFERS, AND AN INDICATOR HORN AND OPTIONAL LIGHT SIGNALS LET RIDERS KNOW WHEN TO MAKE THEIR MOVE. PASSENGERS NEVER HAVE TO PILE UP AND LEAN THE BOAT; THEY CAN JUST SIT BACK, RELAX, AND ENJOY THE ACTION WHILE THE DRIVER CONTROLS IT ALL WITH EASE, GIVING SURFERS A SMOOTH, GLASSY, CUSTOMIZED WAVE ON EITHER SIDE. SURF GATE IS NOT ONLY THE ORIGINAL; IT'S TRULY THE ULTIMATE WAKESURF SYSTEM.

THE ULTIMATE WAKESURF SYSTEM

POWER

▶ MALIBU SETTLES FOR NOTHING LESS THAN THE FINEST, RUNNING WHAT ARE WITHOUT A DOUBT THE INDUSTRY'S TOP MARINIZED ENGINES, OPTIMIZED FOR LIFE ON THE WATER. OUR MONSOON ENGINES START AT 350 HORSEPOWER AND GO UP TO A SUPERCHARGED 555. TALK TO YOUR DEALER ABOUT WHICH POWERHOUSE IS RIGHT FOR YOU, THEN PAIR IT WITH THE IDEAL PRECISION-MACHINED PROPELLER. AND IF THE OCEAN IS YOUR AIM, YOU'LL WANT OUR SALT RESISTANCE PERFORMANCE PACKAGE, AVAILABLE FOR EVERY ENGINE EXCEPT THE 555 LSA.

FIBERGLASS ENGINE-CHASSIS SYSTEM (FibECS)

MALIBU'S PATENTED INNOVATION IS THE BACKBONE OF EVERY SINGLE HULL: THE ENGINE IS THROUGH-BOLTED TO THE FIBECS SPAR, WHICH TRANSLATES TO A QUIET, VIBRATION-FREE RIDE WHILE ALLOWING ACTIVE AIR INDUCTION, FOR BETTER PERFORMANCE AND DURABILITY. THIS CONSTRUCTION TECHNIQUE CREATES A STRONGER HULL AND A SMOOTHER RIDE FOR EVERY BOAT.

UPGRADE TO INBOARD : IT'S THE WISEST WAY TO GO

WHY CHOOSE A MALIBU V-DRIVE OVER A TRADITIONAL I/O? BECAUSE IT'S SMARTER, SAFER, AND STRONGER.

A MALIBU V-DRIVE DOES EVERYTHING AN I/O CAN DO AND MUCH, MUCH MORE:

- Zero bow rise. Clean sightlines. No standing necessary.
- Faster, tighter turns. No rollover. Unequaled agility.
- Customized wakes for boarders and surfers of all levels.
- The maximized torque of V8 engines. I/O V6 engines can't provide the necessary muscle.
- Augmented with unique watersports technologies like the Power Wedge II, Surf Gate, and much more.
- Ride, surf, ski, tube. Wakes or waves on demand.
- A safer propeller, positioned well under the boat, away from swimmers and surfers.

THE MALIBU WAY

YOU DREAM IT. WE'LL BUILD IT.

Every Malibu is made to order, a fully custom design based on your exact specifications and your vision for the ultimate ride. Since Malibu was born, we've focused on building nothing less than the best watersports boats in the world—and we've achieved this through an unprecedented focus on cutting-edge engineering, design, and performance, with relentless attention to detail. We rigorously test prototypes in the lab and out in the field, never compromising on anything. We also listen very, very closely to our pros, customers, and dealers. And we watch the industry like a hungry hawk. Innovation and performance are our touchstones. You having the best of the best is our goal. And our people make it all possible.

It's no accident Malibu makes the best-handling watersports boats on earth. The mantra around our factories is a simple one: "continuous improvement." Every hour of every day, we're looking to top ourselves. We do everything possible in-house and are always working to bring more under our roof, for the highest possible quality control. This is as true in our Australian factory as it is in our U.S. factories, in Tennessee and California. We're all united in our quest to be the absolute best. Some of our competitors think as few as two layers of woven hull is enough, and most use only six; we don't stop until we've laid up eight. Our Wakesetters feature beam widths ranging from 98 to 102 inches; some in our industry stop at 92. We're the only ones who make our own towers, saving you thousands at retail. This year alone, six new parts are being produced in our machine shop, so that we control costs and the supply chain, giving you the highest quality at the lowest possible price.

This passionate dedication ripples outward endlessly. Consider our safety record: 60,000-plus boats on the water without a problem. Count our people on the ground: Malibu has the largest domestic and international dealer network, just waiting to serve you. And, of course, just look at our fans: our people are the heart and soul of our company, but our fans are the lifeblood, out there living a life without limits on the water, showing the world the Malibu way.

THE BEST-SELLING, MOST VERSATILE WATERSPORTS

Malibu is known for being the most innovative company in the history of the watersports industry, with a long honor roll of cutting-edge catalysts. We shifted the market from direct-drive boats to high-performance V-drive boats, and we introduced the first wake-specific hull; the first onboard computer system; the ingenious Power Wedge; the revolutionary Surf Gate; and the best-selling ski/wake/surf boat of all time, the Wakesetter 23 LSV.

INNOVATIVE, AND MOST BOATS IN THE WORLD

Year after year, Malibu sells more watersports boats than anyone else. In five short years, we've gone from being second in market share to being far and away the leader. But all of this success isn't because we're lucky. It's because we're really, really competitive. Our industry-changing innovations, incredible versatility, and ideal mix of performance and pleasure lead the pack. Our competition simply can't keep up.
